

## Why Winspect is thought of as powerful yet so simple to use.

**UTEX** Scientific Instruments Inc.

### Question # 10

**Q:** I can't seem to find a scanner that is right for my job. I am compromising just to get some of the features I want. Could Winspect help?

**A:** Yes, Winspect is a new way of doing business. We offer many alternatives so your system is built to your specifications, using the best that technology has to offer. Typically the best machine builders will use Winspect as a core, adding the best instrumentation for the job, from the largest list of supported hardware, to build your system.

### Question # 13

**Q:** I spend a great deal of time trying to calibrate and home my scanner. Can winspect speed up this process?

**A:** Definitely. Winspect allows you to reconfigure your system in seconds using powerful workspaces that store everything. Workspaces recall settings for instruments, gates, motion control, scans, windows and color palettes. You can fully recreate an inspection or home and calibrate a scanner, simply by recalling the appropriate workspace. Once the workspace is open, just hit Go. It's that simple.
