

How WINSPECT can bring any old scanner back to life

Question # 4

Q: Exactly what types of scanners can Winspect run?

A: Winspect can control almost any type of scanner including immersion scanners, pipe crawlers, tank floor scanners, gantry systems, manual x/y and r/theta scanners, turntables and contour following machines. Most scanner retrofits can be installed in a matter of days making use of the assets you already own such as flaw detectors, motors and primary scanning hardware.

Question # 16

Q: How can my scanner be upgraded to a Winspect system ?

A: Many qualified systems integrators are available to upgrade your old scanner with Winspect. UTEX Scientific has a global network of systems integrators to ensure that there is always a qualified integrator close to you. If you contact us directly, we can refer you to the best systems integrator for your application.
